QUESTION	ANSWER
1. What is the main purpose of the study?	To investigate the effects of the new curriculum on student learning outcomes.
2. What are the research objectives?	To determine the impact of the new curriculum on student learning outcomes, to identify the challenges faced by teachers, and to explore the role of technology in the classroom.
3. What is the research methodology?	The study uses a mixed-methods approach, combining quantitative data (test scores) and qualitative data (teacher interviews and student feedback).
4. What are the findings of the study?	The study found that the new curriculum had a positive impact on student learning outcomes, but that teachers faced challenges in implementing the new curriculum. Technology was found to be a valuable tool in the classroom.
5. What are the conclusions and recommendations?	The study concludes that the new curriculum is effective, but that teachers need more support and training. It recommends that the Ministry of Education should provide more resources and training for teachers, and that schools should continue to explore the use of technology in the classroom.
